R. L. Ketchum has contributed an admirable story to the Argonaut of December 7th. It is entitled "Hat," and it is a splendidly told tale of self-sacrifice of the most pathetic kind, the sacrifice that a young woman makes when she elects her lover and devotes her life to her peevish and ungrateful mother. Mr. Ketchum's stories in the Argonaut—"Billy Bragg," "Evangelist Brick," "A Tenderfoot," and "Hat"—have shown a steady and remarkable increase in interest and power.

Friday Commissioner Hymers and Coroner Peers were notified by section Foreman Murphy of Vista that a woman was found lying dead near the railroad track at Vista, about 12 miles East of Reno. The Commissioner and Coroner took a coffin along, and when they arrived at Vista found the woman was a Washoe or Piute squaw. Her face was smashed out of all semblance of humanity, but no one seemed to know how she was killed, though the supposition was that she fell off a train. They did not deem it necessary to hold an inquest.—Journal.

## Music.

There is piano playing and there is music; the latter is what you hear when Prof. Wolff sits down to the piano at the Criterion. By a combination of feints, passes and counters he plays Annie Rooney in such a manner that you forget it is a chestnut, and a common ordinary finger exercise in his hands is soothing to the senses. He sits for hours at the piano, and turns loose a wealth of melody that makes you forget all care. He puts his whole soul into his work, not a one drawing a salary but as one who loves to do it.

## MORE MINING SUITS.

THE GAME IS EXTENDED FAR INTO THE CIRCLE.

John P. Jones and Other Magnates Sued Extensively.

Special to "Appeal."

San Francisco, Dec 5.—More mining suits filed today. Allegations of complaints show that the issues will be the same as in the Hale & Norcross suit. In the new suits is Theo. Fox, his attorney H. G. Sieberst, one of the counsel in the H. & N. suit. The defendants in one of the new actions are Sir John Mackay, Cornelius Fish, George Wells, Cornelius O'Connor and the Con. Cal. & Va. mining Company.

Plaintiff charges Mackay & Flood, deceased, with having conspired to defraud stock holders' corporation, and in pursuance of such combination causing election of Fish and O'Connor and others Directors, paying to themselves large sums, which were charged to fire extinguishment account, and by that means robbed stockholders of \$50,000. Plaintiff charges that Mackay and Flood procured the payment of \$50,000 to W. H. Patton former Supt. of the mine, and the money eventually reached their hands. He demands an accounting from the Directors.

Another suit is against A. Hayward, W. S. Hobart, S. P. Jones, A. Harmon, W. Sell, A. Rose, Jr., Chas. T. Bridge, Joseph Marks, The Nevada Mill and Mining Co. and the Potosi Mining Co. Hayward, Hobart and Jones are accused of being conspirators who caused election of other defendants as Directors of the mining company, and that they then killed the ore at Nevada mill. He charges them with having stolen seven hundred thousand dollars by over charges for milling.

A similar suit was filed against the same Directors and the Chollar Mining Co.

A fourth is against Con. Cal. & Va., and includes J. P. Jones in the list of defendants. In this action the charges of fraud cover a different period from that mentioned in first suit.

Fox alleges that the stockholders were robbed of \$2,500,000 in the working over of slimes and tailings in the Comstock mill, and declares that defendants over charged to the extent of \$1,829,042 in milling 609,682 tons of ore. Another allegation is to the effect that the defendants in December 1886, perpetrated a fraud by distributing to Maurice Dore 33,309 shares of Con. Va. stock at \$1 a share, which was reasonably worth in open market \$2,131,776, and which has since paid dividends aggregating \$507,918.

## A Determined Suicide.

A man named Davenport committed suicide at Pioche on November 25th by ripping open his abdomen, letting out his intestines, from which he cut about six feet and threw them away. He also severed his windpipe. Ill health was the cause of the rash act.

## Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Aches knocked out in short order. No horseman should be without a bottle.

## JANIN PROCESS A FAILURE.

Suspicion That It Was Intended For a Blind.

A dispatch from Virginia City to the San Francisco Examiner says: The Janin brothers, who came here to try a new process of reducing Comstock ore, which, it was claimed, could save a much larger percentage of the assay value than the process now in operation in Carson river mills, have returned to San Francisco and report that the test was a failure. "It is now stated that the Janin process was sent here by the Hale & Norcross management with the understanding they should report that the present process of reducing ore in operation at Carson river mills is the best that can be adapted, and they will be called to testify to that effect in the suit now in progress against the Hale & Norcross management for an accounting of the bullion produced from ore from that mine. It is alleged that the test was made on Savage ore, which notwithstanding it is free milling, only about 65 per cent. of the pulp assay value is returned in bullion, while above 80 per cent. of Consolidated California and Virginia ore of precisely the same character is returned.

## The Jensen Complication.

Dr. Guion is treating a man at the Briggs House, for stomach trouble. The man's name is Jensen. The Doctor fixed up an emetic in the shape of two powders, and sent them down to the hotel with directions, etc., and the patient's name written on the wrapper.

When Briggs, the proprietor, received the medicine, he said to the barkeeper who had been feeling badly:

"Here Jensen, is some medicine for you from Guion."

"I didn't order it," said Jensen, "but I guess Doc heard I was sick and sent it down, so I'll take it anyway."

Jensen took one of the powders and sat down to await results. He did not have long to wait, either.

It was good medicine—of the kind, but not especially suited to Jensen's complaint. It's action was thorough and gentle, as the patent medicine adv. says. He managed to keep down his knee-caps, along with some other necessary machinery of his interior department, however.

Just then the other Jensen, upstairs, sent down word asking if his medicine had come.

It had.

The other powder was immediately sent up, and had the desired effect.

The barkeeper was not seriously injured and will be on deck shortly.

The doctor didn't know just whom to collect from but finally concluded to send down one bill and take chances on both Jensens paying it.

## An Incendiary in Reno.

A special dispatch yesterday from Reno, says: An incendiary fire broke out early this morning in a place known as "Gilmore Gardens." The body of Wm. Hedges was found burned to a crisp. His skull was found to be fractured and foul play is suspected. A man named J. F. Savage has been arrested as the incendiary. An inquest will be held this afternoon.

## There is no Secret

About your buying shoes to advantage. You may not know any more about the quality of leather than you do about a lost comet but that is no reason why you should get "stuck." Either you get your money's worth or you don't and if you don't is your own fault. We are in the shoe business because we happen to know something about shoes and leather. It is "bread and butter" to us, therefore we make it a STUDY. Of the knowledge you get as much benefit as though you possessed it yourself for we place it entirely in your disposal and if you think that other houses can quote lower prices than we do, come and look at the goods and and prices. We will put our time against yours and we feel confident that the result will be a mutual benefit.
